

The login and registration forms are located on the navigation bar of the application bar.

Login page will look like this.

← ↻ 🔒 https://localhost:44311/LoginAndRegistration/Login.aspx

Login Register

Please Login Here

Username Insert Password Login

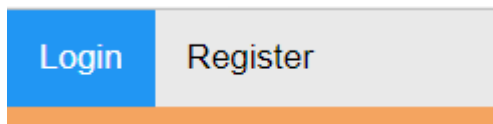

As you look at the navigation you will see form that will allow you to log into the system.

Please Login Here

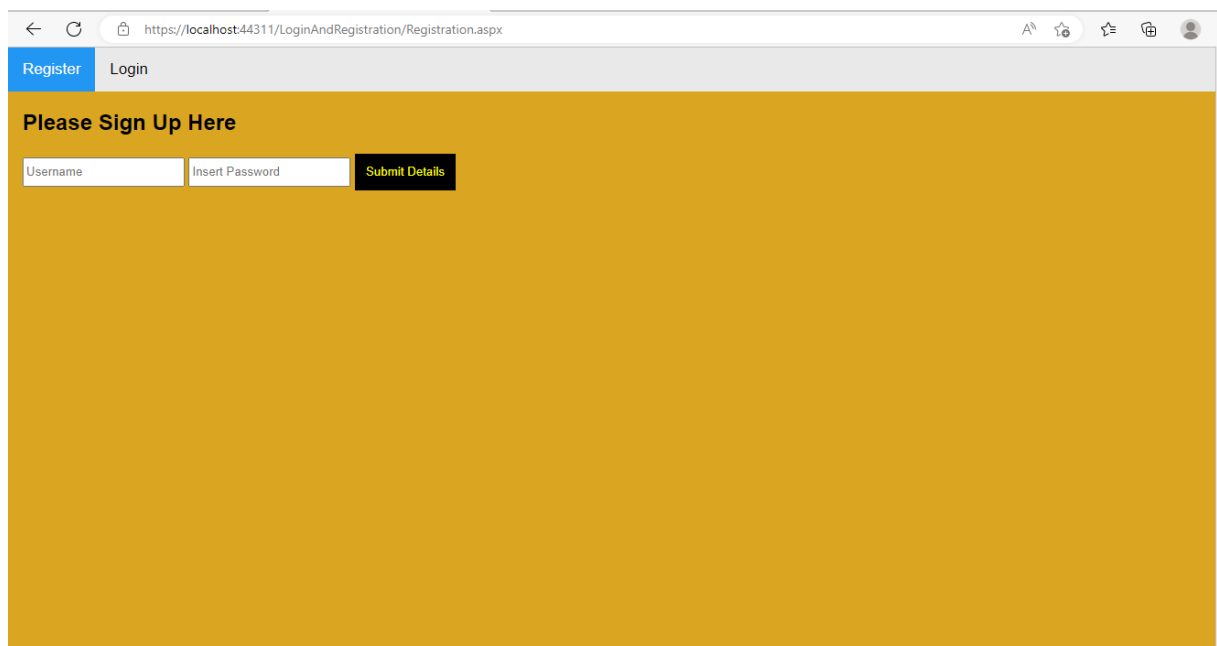

Username Insert Password Login

If you do not have an existing account please click “Register”

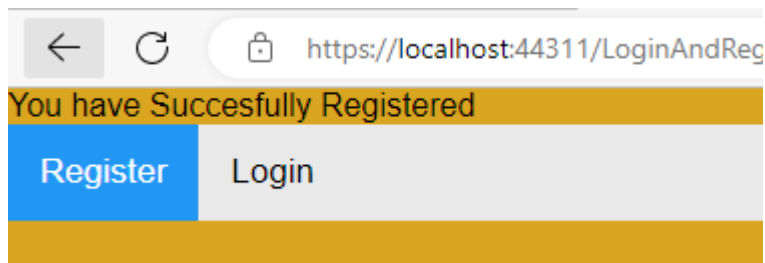

Login Register

The registration page will look like this, and fill in your details below. Therefore Click “Submit Details” button.

A screenshot of a web browser showing a registration page. The browser's address bar displays 'https://localhost:44311/LoginAndRegistration/Registration.aspx'. The page has a header with two tabs: 'Register' (highlighted in blue) and 'Login'. Below the header, the main content area has a yellow background. At the top of this area, it says 'Please Sign Up Here'. Below this text, there are two input fields: 'Username' and 'Insert Password'. To the right of these fields is a black button with the text 'Submit Details' in yellow.

Small message will pop up on the top of page if you successfully registered.

A screenshot of the same web browser showing the registration page after a successful registration. The address bar still shows 'https://localhost:44311/LoginAndReg'. A yellow banner at the top of the page reads 'You have Succesfully Registered'. Below this banner, the header tabs 'Register' and 'Login' are visible. The 'Register' tab is still highlighted in blue, and the 'Login' tab is now visible and clickable.

Click login button then use the registered details to get into the system if mistake is made during login you won't be able to login. If access is granted, this will be the system interface.

Now User can load Their Modules by inputting all the fields and clicking submit and interface will reload with loaded data at the button, and also a chart feature will be shown.
